ME GUSTA CORRIENTES

SYNOPSIS

"Me gusta Corrientes" is a general interest program whose main objective is to show the city of Corrientes and its tourist virtues in a different way from what others make visible. It's filmed by drone that shows Corrientes from above. The most ambitious thing that the program does is to travel throughout the province. Each of the young people who are part of the program are trained in the subject they are dealing with. It is a cooperative of people who put forward the proposal and manage it themselves, without the support of the provincial or municipal government, only the desire to make the province known with a fresh and innovative look. A great work by the technical team, sound, images and three cameras that genuinely consider their audience of the Channel 9 screen.

HOSTED BY

ELIANA BADARACCO
