NOTAS DE PASO

SYNOPSIS

Ernesto Snajer together with outstanding guests of our music, will address issues related to the way of playing instruments, musical styles, arrangements and compositions.

The focus is not intended to be educational. The chosen themes act as triggers for each guest to freely expand on their own art. In this way, influences, points of view, experiences and, above all, music will unfold. The talk between the performers, along with the texts created by the writer Pablo Ramos, are interspersed with musical fragments that illustrate the examples.
