

EL CORRESPONSAL

EL CORRESPONSAL

SYNOPSIS

El Corresponsal (The Correspondent), journalism at the scene.

The journalist Nelson Castro goes to the places where an event occurs to give his own vision of what happened and report it with the view of an outsider.

The aims of the program are: to transmit a vision of the situations with the journalist in the actual place, including backstage footage and, in addition, to do so with criteria of high television performance.

These are aspects that make El Corresponsal stand out.

Since 2019, the most prominent coverage is: the Chernobyl nuclear power plant, the 50th anniversary of the arrival of man on the moon, the crisis in Ecuador, the uncertainty after the allegations of fraud in Bolivia, among other productions.

HOSTED BY

Nelson Castro
