LA 1-5/18

SOMOS UNO

SYNOPSIS

The story takes place in a slum called "La 1-5 / 18", recently dubbed "La Peñaloza", where a group of women take turns with their jobs and their own conflicts, with others in the neighborhood. They are always ready to help those in need, including running a children's food bank and handing out donations.

The protagonists will live together with a variety of characters of different sexes and ages; delightful human beings who are deprived of some rights, but who have dignity and know that the only way to get ahead is by staying united.
